

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

1912, .....	12,372	3,131,430 72	512	.....	40,145 53

While the above table shows an increase in the number of taxable companies for the year 1912, to the extent of 512, as compared with the assessment of 1911, there is a decrease in the amount of tax assessed of \$40,145.53.

By proclamation of the Governor, dated February 28th, 1912, the charters of 1,153 corporations were declared forfeited for non-payment of State taxes assessed for previous years, all of which corporations were included in the tax levy of 1911, so that, as a

matter of fact, the assessments of 1912 included 1,665 new corporations. The records of the State Comptroller show the following collections of tax from this class of corporations for the fiscal year ending October 31st, 1912:

Received for taxes levied in 1912, .....	\$2,391,969 35
Received for taxes of previous years, .....	202,911 75
	<hr/>
	\$2,594,881 10
Received from Secretary of State for corporation fees, .....	169,126 31
	<hr/>
Total receipts for fiscal year, .....	\$2,764,007 41

An increase in collections as compare with the year 1911 of \$16,-928.08.

During the year 1912, the State Board of Assessors has received, considered and adjudicated Petitions of Appeal from assessments levied against 313 corporations which, through failure to observe the law requiring reports to be made on or before the first Tuesday of May annually, were assessed in default thereof upon the basis of full authorized capital stock. As has been stated in previous reports, if these corporations had complied with the direct command of the statute by making proper returns, there would have been no occasion for the subsequent proceedings above noted.

Since the report of this Board for the year 1911, returns have been made to writs of certiorari allowed by the Supreme Court, carrying up for review the assessments in the following cases:
